Reject Race Track Plan

State Law Precludes Acceptance

Supervisors Advised
By Counsel Proposal
Cannot Be Considered

There'll be no desert race track.

Riverside county supervisors this week rejected the proposal of Abraham Teitelbaum, Chicago attorney and capitalist, who offered to construct a major racing plant on the desert a short distance from Palm Springs.

They acted following receipt of an opinion from County Counsel Earl Redwine that the proposal would not meet the law's requirements.

BESIDES the doubt cast upon the legality of the proposal, supervisors said their action was also based on "ethical and moral grounds."

Teitelbaum, who is living on a ranch near Indio while on vacation from his Chicago law office, offered to build a racing plant next to the county fair grounds at Indio at a cost variously estimated at between \$1,500,000 and \$2,000,000. He offered to deed it to the county if they would lease it back to him for a 50-year period.

He said he would obtain a 45-day meet which would provide winter sport for tourists and winter residents of Palm Springs and the desert area.

IN HIS OPINION handed supervisors, Redwine recommended that the proposal be rejected without further consideration. "It cannot legally be accepted or favorably acted upon," he said.

Supervisors at once voted to deny the proposal and instructed that Teitelbaum be so notified.

Supervisor Arthur Weirick said that the boards' action should make it clear that it is opposed to the track on other grounds. A race track at Indio would be against the general welfare, he said.

COUNTY COUNSEL Redwine called Teitelbaum's proposition "unique and unorthodox." He said that, under the law, it could not be accepted.

Action of supervisors blocks Teitelbaum's plan to build a track in conjunction with the county fair but does not prevent him from building a separate major track providing he can gain racing board sanction and assurance of racing dates.

This Side Of The Sun

By Phat

Most of the year, a reprobate,
Next Sunday, he's a good old
skate.

That's the old man . . . Maybe once in a while he lingers too long with the boys to have a couple of beers . . . At least, that's what he always says he had . . . Preceded every time by the word "only" . . . And perhaps, occasionally he comes tip-toeing in with his shoes in his hand and his pockets inside out after trying to fill inside straight all night . . . He may even look twice when a blonde passes . . . But come Sunday, all is forgiven—temporarily—and he'll have neckties to the right of him and razors to the left . . . It's Father's Day, an armed truce which prevails the third Sunday in each June . . . They observed Mother's Day for years until somebody happened to remember there's got to be a father, too . . . Probably some necktie salesman who got the bright idea when his hat came sailing out of the door.

I'VE GOT more than 500 records up home but in going through them the other night, couldn't find a one appropriate to play to myself Sunday morning . . . Seems there aren't many songs dedicated to dad . . . There are some, of course, but they cast reflections on his sterling qualities . . . Like "Everybody Works but Father," and "Father, Dear Father, Come Home With Me Now" . . . These were written undoubtedly before the days of See THIS SIDE OF SUN, Pg. 10

Softball

Six Games Scheduled
On Field Club Diamond

Seven games are on the Softball schedule this week end and the fore part of next week. Recreation Director Bob Bennett reminded fans today.

The schedule between now and Tuesday follows:

Tonight: Boys' League—Roadrunners vs. Lions Club; Desert League—American Legion vs. Palm Springs Electric (Second Game).

Monday Night: Girls' League—Desert Stars vs. Mexican Chicks; Desert League—Mexican Colony vs. White Sox. (Second Game).

Tuesday Night: Girls' game, non-League—Coachella vs. Globe Trotters; County League—Banning Outlaws vs. Palm Springs. (Second Game).

Attendance At High School Jumps Sharply

Palm Springs high school has doubled in size in the last five years according to the annual report submitted Monday to the California state department of education by Principal Ernest E. Oertel for the school year 1947-48. This report shows an average daily attendance for the high school of 301.80, approximately twice the A.D.A. figure reported for the school year 1943-44.

Peak enrollment for the year was 336, according to Principal Oertel. The high school graduated 59 seniors this year, and the junior high school had an eighth grade class this year which reached a peak of 121. It is estimated there will be approximately 100 students in the freshman class next year and that the maximum enrollment in the high school will be almost 400 students.

IN ADDITION to the 301.80 A.D.A. figure for the regular day high school reported to the state department, the high school office reported an additional 8.02 A.D.A. for special day and evening classes, making a grand total A.D.A. of 309.82 which is recorded officially as 310.

A.D.A. means the number of students in average attendance during all of the actual teaching days of the school year. Enrollment figures are always higher, and they determine the number of pupil stations that must be furnished in the schools. A.D.A. figures are always used for computing state apportionment of school funds to the individual school districts.

A.D.A. FIGURES for the past five years have been reported officially as follows for the regular day high school:

1943-44	151.73
1944-45	174.98
1945-46	198.91
1946-47	272.57
1947-48	301.80

To Convention

Delegates from Palm Springs post, Amvets, took off yesterday for San Jose where the state convention of the American Veterans of World War II opens today to continue through Sunday.

The local delegation made the trip by motor with Col. C. N. Braswell as host.

Going north were Col. Braswell, Bill Davis, Pegi Scot, Esther Yurman, Minerva Wainess and Bill Rashall.

City Doing All Right

WAA Inspector Finds Real Effort Made
Here to Keep Airport in Top Condition

Palm Springs is doing all right by its airport according to word received this week by William E. Alworth, city manager. He got it direct from C. G. Cahill, maintenance chief for the WAA realty disposal division.

Under terms by which the city took over the former army air base here Sept. 16, they must maintain it in good shape.

That they have done just this was the statement in a letter Alworth received from Cahill.

An inspector for the WAA maintenance division made a surprise visit to the local port and without the knowledge of city officials, inspected the prem-

Dr. Oertel Says Politics Hurt School

Charges Educational
Leadership Second to
Expediency in Village

Charging that the school trustees, in his opinion, have been following the dictates of political expediency and not sound educational leadership, Principal Ernest E. Oertel said this week in a statement given the press that personal whims of individual trustees have been placed ahead of the welfare of the district in making decisions as to the selection of school personnel for administering school programs and policies and the expenditures of public funds for building purposes.

"The high school board," Oertel declared today, "should have elected me on May 11 when all other high school staff members were reelected or had the courage at that time to pass a resolution declaring that my services would not be required after July 1."

"RECENTLY a committee of two board members came to see me and said they had talked the matter of my retention over with the new members of the Unified Board, who came into power July 1 and who have had no experience with me as an employee, and that the consensus was that a contract would not be offered me. The committee suggested that a resignation from me would be the easy way out."

"I said I had no reason for resigning, that the high school board or the acting Unified Board has had a reasonable time since May 15 to make an official decision on my contract, and that in the present circumstances, and because of attacks directed against me in a recent trustees election campaign, I expected to take advantage of the school law which automatically gives me a contract for the school year 1948-49 because official notice to refuse a contract was not presented on or before May 15."

"More as a heavy taxpayer in this district than as a school employee I now expect to make public numerous facts and figures relating to the administration of the local schools which I think show that political rather than educational leadership is being followed in the conduct of school business affairs."

"FIRST OF ALL, why is it that, according to unofficial reports, a majority of the trustees for the new Unified District do not voluntarily wish to renew my contract. In the high school for the past six years board members have not hesitated to say that my work has been entirely satisfactory. With respect to credentials, I have the highest available in the country—a Ph.D. in educational administration from Columbia University together with a Superintendent of Schools diploma from the same institution. I have a life general administrative and a life general secondary credential or the State of California. I have had successful administrative experience on all levels in responsible public school positions from kindergarten through the junior college grades."

"THE SECOND POINT I wish to make at this time is that the failure to follow sound educational leadership is costing the taxpayers more money than they can afford to spend."

"With the new building for See DR. OERTEL, Page 10

Palm Springs Favored for Convention

DAV Session in 1950
Practically Assured
Say Returning Delegates

It's just the same as being in the bag.

So said returning Villagers who attended the state convention of the Disabled Veterans of America at Long Beach.

Yeoman work on the part of Villagers has practically assured the selection of Palm Springs as the convention city in 1950. Official selection cannot be made until the next state convention in 1949.

VILLAGE DAV members of Palm Springs Chapter 66 who attended the session and worked with might and main to swing the 1950 session to this city were De. James Potter, Bill Rashall, Ray Hiller and Dr. Joseph D'Alesio.

They entertained leading state DAV officials, worked on the convention floor and even got in some plugs for the Village as the convention site from entertainers at the beach session.

AT LONG BEACH to aid the delegates in plugging for the session were Charley St. George of Owen B. Coffman Post, American Legion to extend an invitation to the DAV to use the World Wars Memorial building as a convention site, and M. A. Charleston, head of the chamber of commerce convention committee.

They succeeded in quieting the fears that a Palm Springs convention would cost too much.

DAV SESSIONS alternate between the north and the south and next year's session goes to San Jose. At that time it is expected Palm Springs will be delegated as the 1950 convention city.

Samuel (Tex) Ross of Los Angeles was elected California Department commander at the closing session Wednesday.

Service

Police See To It That
Church Locked at Night

The life of a Palm Springs policeman is varied and never monotonous.

Among the many things they have to do from soothing frightened women who believe they saw a snake in the house to chasing pigeons off theater roofs, they also check doors which forgetful merchants and professional men leave unlocked.

But there is one door they know is going to be open and each night around 10 o'clock they go and lock it.

The Rev. Robert M. Hogarth of St. Paul's in the Desert, Episcopal church, leaves the doors of that edifice open as a welcome sign to any who wish to enter at any time to pray.

As he lives a considerable distance out of town, it's too much of a task to come in each night to lock it.

But it's locked, nevertheless. Each night around 10 o'clock one of the policemen goes to the West El Alameda church and locks the door for the night.

It's just another service.

Beach Highway

Short Cut to Pacific
Sought by Association

Appeals for action on the plan to build a "desert to ocean" cut-off highway and election of officers featured a meeting of the Coachella Valley to Ocean highway association at Anza in the mountain area Sunday.

Clark Devany of Anza was elected chairman of the association at the meeting which was attended by boosters of a short cut to the Pacific and county officials.

Two links are missing in the highway—pavement from Palms to Pines highway to Anza and from Anza to a point near Caahuilla from where pavement now leads on to the ocean. The outlet at the beach would be at Oceanside.

IT'S THE HEAT—Summer time may be simmering time in Palm Springs but it certainly is simian time . . . This monkey came in with a party at Jud Osburn's station the other day and gave the attendants a bad time until somebody ran next door to Jack Eisnhour's and got the malt for him. Then servicing the car went smoothly. (Desert Camera Shop Photo.)

Preliminary County Budget Ten Millions

Supervisors this week were given first glance at the tentative budget for the 1948-49 fiscal year which shows an increase of more than \$2,500,000 over the 1947-48 budget but were told by County Auditor Ray T. Hicks that the budget really represents an increase of \$1,317,647 over the amount raised by taxation the current fiscal year.

The tentative budget for 1948-49 totals \$10,880,033 compared to the \$8,347,218 budget for the 1947-48 fiscal year.

FEDERAL and state contributions for the new fiscal year will total \$5,184,854 compared to \$3,969,686 this year accounting for the difference between the increase in the county budget and the total to be raised by taxation, Hicks said.

Funds to be raised in the county under the tentative budget for the year beginning July 1 amount to \$5,695,179 compared to \$4,377,532 for the year ending June 30.

SOME OF THE LARGER increases shown in this year's preliminary budget—which will be subject to drastic slashing and pruning in many of its items before the budget in its final form is adopted by the county governing board weeks hence—are: Court-house and Building, \$162,675; Sheriff, \$223,457; Hospital, \$169,923; Welfare, General Relief, \$136,261; Forest Protection, \$59,137; Juvenile Hall, \$62,085; Health, \$42,118.

Drivers' Tests

Once Weekly During
Summer Months, Word

Summer schedule for drivers' license tests will start July 6, according to the motor vehicle department.

Tests will be given on Thursdays here at the El Paseo building in morning and afternoon sessions. The one-day-a-week schedule will prevail from July 7 here until further notice.

At present tests are given starting at 9:30 a.m. and closing at 4:30 p.m., on Wednesdays and Thursdays.

Planners

Coachella Valley Group
To Meet Here June 23

Palm Springs will be host Wednesday, June 23, to the Coachella Valley Planners Advisory group, William E. Alworth, city manager said yesterday.

The meeting will be held at the El Paseo theater starting at 7:30 p.m. and is open to any who are interested in planning affairs.

Coordinated planning for the Coachella Valley area will be discussed.

Ted Carleson, chairman of the advisory committee, will preside.

Action on Project Speeded

Improvement of Drive
From Alejo to Ramon
Due for Early Action

Approval has been given by the state highway commission on a major project in Palm Springs—the resurfacing of Palm Canyon drive from Alejo to Ramon road, Manager William E. Alworth said today.

The project was requested by city council at its session on April 24.

E. Q. Sullivan, division engineer for the commission with offices at San Bernardino notified Alworth yesterday of the favorable action.

RESURFACING of Palm Canyon drive has long been sought and the commission's favorable reaction to the city's request was received with satisfaction by city officials.

Sullivan wrote Alworth that the project had been placed on the early highway budget for financing and contract. It is one mile in length.

"The job is an important one, needed to preserve the present pavement," Sullivan said.

TOP FEATURE of the job, said Alworth, will be the rebuilding of the intersection at Ramon road and Palm Canyon drive. For years this intersection has been slightly below grade and a gathering spot for most of the water used in flushing off sidewalks up town.

Because of the pond which formed there, the city passed several measures regulating sidewalk washing and has tried many methods of draining off the water. The rebuilding job will solve the problem which has existed for many years.

IMPROVEMENT of the Drive is needed not only because the thoroughfare is rough and getting rougher but its appearance is not good, said the city manager. The resurfacing job will be an important betterment here.

In the meantime state highway crews have been active in the Drive during the past few days repainting pedestrian zones and other street markings.

Keeps Chin Up

But Partridge Has to
Have Help of a Brace

"It's worse than the accident." That's how Frank Partridge characterized the brace he has to wear to keep his chin up and relieve injured neck muscles.

Partridge was involved in an accident a week ago in which four persons were hurt. He was able to quit the hospital soon after but Miss Betty Bell, real estate broker, is still there. Two others, Hal Leland and Ruth Carter escaped with slight injuries when automobiles driven by Leland and Partridge as a passenger and by Miss Ball, with Miss Carter as a passenger, collided on Ramon road.

It's a Boy!

Cliff Halstead Wires
Friends of New Son

"It's a boy! Cliff Halstead II. Born St. Mary's hospital, Reno. Maxine and boy doing fine. Regards to all."

That was the text of a telegram received yesterday by Village friends from Cliff Halstead of the Tennis club announcing the arrival of the Halsteads' third child.

The PUBLISHER'S Corner

WE MUST BUILD NOW—the members of the Community Church of Palm Springs decided a few months ago. The words were soon translated into action and the building expansion program is now under way. It includes several new Sunday school and class rooms, enlarging the auditorium to accommodate 600, a new kitchen, ladies' parlor and choir room, better heating and cooling facilities and other improvements. After 12 years of service to the community, the church had outgrown its plant. Designed by Harry J. Williams, the enlarged and beautified church will be better able to serve the needs of its increasing membership. The estimated cost of improvements is \$155,000.

Determined that the Community Church should not go heavily into debt for improvements, the building committee has decided that the work can be carried along only as funds are made available. The first unit is now under way—others will follow. Communications relative to donations may be sent to the pastor, Rev. James H. Blackstone, Jr. It's a worthy undertaking.

FOR SECURITY—of your country and your family—buy a Security Loan Bond. It's a good feeling, having some government bonds tucked away for a rainy day and increasing in value all the time. Owners of war bonds know what it means. Maybe you are one of those who has been tempted to cash in a few to meet an emergency. Now is the time to replenish that important reserve fund—during the American Security Loan drive which ends this month. You can buy these bonds at the Bank of America or the Post Office. Better still, join the bond-a-month club by signing up to have the bank buy a bond for you every month and deduct from your account. It's an excellent savings plan, too.

WE PAY TRIBUTE to the stores and offices which remain open all summer. Many lines of merchandise—and most of the essential services are available. They deserve our patronage and support. They help to keep more people here for the summer months and make life more enjoyable for those who do stay. This is a good time of year to fix up the store or office, make needed home improvements. At the same time it stimulates business activity.

Gain in Property Tax Levies Here Below State Level

Ten Per Cent Boost
In Riverside County,
17 Per Cent in State

Property tax levies for all the local governments in Riverside county total \$8,083,113 for 1947-48, up 10 per cent over the \$7,380,559 levied for 1946-47, and up 97 per cent over the \$4,102,171 prewar levy for 1941-42, California Taxpayers' association reported today.

Of the total property tax levy in the county for 1947-48, \$3,362,781 was levied for the county government, \$1,235,078 for the cities in the county, \$2,988,721 for the school districts, and \$496,533 for the other districts in the county.

OVER THE STATE as a whole, property tax levies for 1947-48 total \$555,546,929, up 17 per cent over the \$473,810,949 levied for 1946-47, and 73 per cent greater than the prewar levy of \$321,734,456 for 1941-42.

County property tax levies throughout the state totalled \$210,703,119 for 1947-48, compared with \$185,236,298 for 1946-47, and \$126,383,914 for 1941-42.

City property tax levies in California for 1947-48 amounted to \$103,660,479, compared with \$89,588,392 for 1946-47, and \$65,930,466 for 1941-42.

Property tax levies for school districts reached \$202,603,395 for 1947-48, compared with \$167,940,897 for 1946-47, and \$107,598,780 for 1941-42.

Other district levies for 1947-48 were \$38,579,936, for 1946-47, \$31,045,362, and for 1941-42 \$21,821,296.

PROPERTY TAXES are only one of the sources of revenue of local government in California, the association pointed out. Subventions from the state to local gov-

Rental Ruling

Area Director Rules on
Collections Under Leases

George J. MacDonald, area rent director, announced today that in accordance with the requirements of Section 204(g) of the Housing and Rent Act of 1947, as amended, wherein the Housing Expediter's office was required to make a determination of the rental practices in the various rental areas with reference to security deposits, the findings in the San Bernardino - Riverside Defense Rental Areas were as follows:

"Written leases covering a year or more period, the first and last months rent may be collected."

ernments for 1947-48 were budgeted by the state at \$401,878,861. For 1946-47, they amounted to \$226,487,556 and for 1941-42, they were \$147,232,237. Federal aids, and other tax and nontax revenues, including sales taxes and licenses, fees, and fines, swell the total of local government revenues to well over a billion dollars.

Local government budgets for 1948-49, which are now being made up, will determine a good sized part of the taxes which the people of California must pay during 1948-49, the Taxpayers' association said, warning that "Every dollar that government spends must come out of the blood, sweat, and tears, of the people."

Dayton Man Owner Of Village Estate

William Klinger Buys
Sydney Schiff Place

One of this year's biggest residential transactions was announced this week with the purchase of a large estate in Merito Vista Tract by Mr. and Mrs. William Klinger.

A well known electrical contractor of Dayton, Ohio, Mr. Klinger is retiring from business and bringing his family out west to make their home in Palm Springs. They bought the former Sydney Schiff house for approximately \$75,000, the transaction being handled by Burnham Bigelow of the Raymond Cree office.

Big Business

Tourist Industry Adds
\$176,500,698 Income

The tourist industry, Southern California's largest single source of new income, poured in \$176,500,698 during the last Fall and Winter seasons. A total of 1,062,207 out-of-state pleasure visitors spent this money here during the six months of September through February.

Ice Cream Made Before
Your Eyes at Store

Palm Canyon drive will soon have a beautiful new store, offering fresh-made ice cream, all done before your eyes and frozen in a matter of seconds.

Bob Knotts, long-time resident and home-owner of Palm Springs is backing this venture which will give to patrons a superior quality of ice cream, high in butter fat content. Catering is also contemplated.

A permit was issued this week and already extensive remodeling is under way on the store located in the Potter building at 324 N. Palm Canyon drive. Lavish use of glass and stainless steel is being made and the new store promises to be one of the most attractive on Palm Canyon drive. Specifications have been approved by the State dairy code and high standards of sanitation

Builders Praised 300,000 Business Aid In Developing Nation

The private building industry, which is called on to construct buildings varying in size from the Pentagon and the Empire State Building to back-yard garages, is composed of more than 300,000 separate businesses, small and large, Melvin H. Baker, chairman of the Construction Industry Information Committee, said last week.

"These businesses collectively play a vitally important part in the economic welfare of every individual community," he said.

will be maintained at all times. Contractor for the remodeling is Arthur Coffey. Long-term lease was negotiated by Guy Anderson, realtor, of the firm of Terry Ray and Guy Anderson.

Southland Building Activity Showing Substantial Gains

Reports from 46 Cities
Reveal Sharp Upswing
In All Construction

Construction activity in Southern California, as indicated by building permits, again increased considerably as 1948 advanced toward midyear.

In Palm Springs building totals already exceed the entire first half of 1947 by a wide margin. Forty-six Southland localities issued permits totaling \$72,633,119 last May. That brought their total for this year's first five months to \$388,228,466, representing an increase of \$145,411,403 over their aggregate for the similar span last year.

The Communist party should be promptly outlawed in America.—Harold E. Stassen.

One Service Next Two Sundays at Episcopal Church

There will be one service in the Episcopal church the last two Sundays in June, the 20th and 27th: Holy Communion at 8:00 a.m.

About July 1 the Rev. Robert M. Hogarth, rector, will take up his residence somewhere nearby at the coast, and will return to Palm Springs at intervals, as calls are received for spiritual ministrations. His address and telephone number for the summer will be carried in this paper.

The church will reopen for all services and Sunday school about the middle of September. Due notice will be given.

Metallic paints, such as shiny white paints used on radiators, may cut down the amount of heat given off, points out the Department of Agriculture. The darker the paint, the more heat given off by the radiator it stays.

Christian Science Text on Atomic Force

"Is the Universe, Including Man, Evolved by Atomic Force?" This question will be the Sunday Lesson-Sermon subject in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston. The Golden Text is from I Corinthians: "Though there be that are called gods, whether in heaven or in earth, (as there be gods many, and lords many), but to us there is but one God, the Father, of whom are all things, and we in him." A Scriptural selection from Proverbs reads, "My son, if thou wilt receive my words, and hide my commandments with thee; So that thou incline thine ear unto wisdom, and apply thine heart to understanding; Yea, if thou criest after knowledge, and liftest up thy voice for understanding; . . . Then shalt thou understand the fear of the Lord, and find the knowledge of God. For the Lord giveth wisdom: out of his mouth cometh wisdom: and understanding."

On this subject Mary Baker Eddy says in "Science and Health with Key to the Scriptures": "The true theory of the universe, including man, is not in material history but in spiritual development. Inspired thought relinquishes a material, sensual, and mortal theory of the universe, and adopts the spiritual and immortal."

The screen is free in America. I intend to do everything within my power to keep it free.—Eric Johnston, president, Motion Picture industry.

Anglo-Saxons were early users of metal rings. The word "wed" meant a pledge and a ring was used to seal the bargain.

Regular Services During Summer at Community Church

Sunday services at the Community church are being held at the regular hours throughout the summer months. Sunday school commences at 9:45 a.m. with an opening worship service for all. Immediately following the worship period classes are provided for groups of all ages.

At the 11:00 o'clock service Rev. James H. Blackstone Jr., pastor will preach on the subject "The Precious Blood of Christ." "The most precious thing spent in the recent world war to preserve freedom in our great land was the blood of those who died in battle," he said. "Far above the tremendous cost of munitions, the fearful material loss in devastated areas, the sacrifice at home of luxuries or the scarcity of a few articles that we thought essential—far above these do we reckon the price paid in the blood of human beings."

"And even so does God reckon the price of our salvation, the precious blood of Christ, as infinitely beyond our computation. This sacrifice, which so perfectly reveals the heart of God, has captured the hearts of countless

millions and brought them in gratitude into the fellowship of His Kingdom. No greater thought can enter man's mind than this, that God 'commendeth His love toward us in that while we were yet sinners, Christ died for us.' The evening service will be held at 7:30 p.m. with a song service followed by a gospel message. All are welcome.

We may lose every cent we put up, but it seems to me there is a chance it (ERP) will aid the battle against communism.—Sen. Robert A. Taft (R.) of Ohio.

Three Down

Other Two Pigeons Face Similar Fate

A sequel was written this week to the pigeon story which involved a complaint from Earle Strebe to the police department. Strebe asked police to do some-

thing about pigeons which were messing up the roof of the Plaza theater.

Police did, according to the following notation on the blotter Monday:

"Three of the five pigeons bothering Earle Strebe won't—any more. Will get the other two if the first three are good eating.—Houghton and Hockerman."

Italy After the Election

Presenting an inside picture of Italy during the recent election time which decided whether that nation was going east or west, is the letter from Florence, Italy, just received by Abe Adelman, Village insurance man, from Fernanda Vannini, a former employee of his in Des Moines, Iowa.

The letter follows:
The game is now over . . . the battle has been won! And what a fight it has been. The many and multicolored electoral campaign posters, of all parties (full of truth and lies), are now being washed off the faces of the buildings. Above all and everything the TRUTH stands out, expressed in actual figures. Life is gradually returning to normal . . . and what a beautiful thing it is. We speak of winners and losers . . . but really nothing has changed. This old country, still weak under its recent wounds, lifts its head and "goes on." People, with renewed confidence, smile at each other. They know they have won, as a civil nation, the great trial, perhaps the decisive trial, which was placed before them. They have chosen liberty and order against slavery and chaos.

The Communists, of course, have been taken by surprise. They were so sure of victory!!! They seem bewildered and scared. Strange questions flutter around them, "What will become of us now?" They probably think the world will change because of these elections. But why . . . of course, because they know . . . they know what they would have done had they won! Many threats had been made and in all probability plans of action existed certainly not impressed to the respect of liberty and therefore, because of that logic which lives and acts in the name of violence, the losers expected the winners to be relentless. But nothing of the sort . . . Everything, however, would have changed for the winners of today, had they been the losers. The Communist leaders evoked the ghosts of reprisals and hunger, they had scared the less educated labouring class and ignorant mass into believing that should the battle be lost, they would lose their jobs, etc., etc., and it is a pleasant surprise for them today to learn that nothing has really been lost and that everything is still the same. The leaders, of course, those who pulled the wires, had no misapprehensions. Blowing into the fire, they well knew that nothing would have been lost, whatever the outcome. On the other hand, they would have said and acted

without scruple, had the battle finished in their favour. They lied to their followers until the very last, trying to make them believe they had won in spite of the figures quoted by the radio and the daily papers. They shift the blame of their defeat on Saragat, on the women, on the priests and the nuns . . . but fault or no fault, a large number of their followers are finally waking up and asking themselves, how they could have been so deceived. It is certainly to be hoped that soon, very soon, the losers of today will stop looking surlily with distrust at the winners and that the latter too, will act in such a way as to convince the former, spontaneously, that nothing has been lost, that Italy belongs to all the Italians, no one excluded and that the governing powers, are striving and working for the welfare of all of us.

William Graham
Receives Degree
At Claremont

William J. Graham, son of Mr. and Mrs. Charles A. Graham, 404 Camino del Sur was among the large senior class receiving degrees Monday at the 55th commencement at Pomona college, Claremont.

Dr. Paul A. Dodd, dean of the College of Letters and Science at the University of California at Los Angeles, addresses the class on the subject, "Gentleman's Agreement."

Graham is a veteran of the Navy in World War II and is married.

He is a graduate of Palm Springs high school. His major interest in college was in law, minor in business administration. He is a member of the Kappa Theta Epsilon fraternity.

Graham plans to attend Stanford law school.

With a Stinson
I cover the field-get
back to the office
by noon!

Irwin Kahn, contractor,
Columbia, S. C.

"Supervising construction projects used to keep me on the road from morning till night," says Irwin Kahn. "Now I can cover my 200-mile area and be back in the office by noon . . . ready to quote on new business."

"My Stinson paid for itself by giving me extra days for a business-expansion program. What's more—it gives me full weekends with my family. They're as enthusiastic as I am about Stinson travel."

Is this a profit making idea for your own business?
Let us check the facts with you.

See America's No. 1 Utility Plane

Stinson for '48—Carries four people and baggage, or pilot and 640 cargo-lbs. Cruises at 130 m.p.h., at 5,000 ft., with range of 554 miles. Quick take-offs, slow landings, for short-field operations anywhere. Spin resistant. Safe. See America's best selling 4-place plane. Let us give you a demonstration.

FREE FLIGHT TRAINING

We offer free flight instruction—up to the point where you fly the airplane alone (solo flight)—to a limited number of qualified business and professional men. Government-approved instructors. No obligation. Inquire now!

Double Victim

Thieves Strike Twice
Trezevant Tells Police

Lightning may not strike twice in the same place—but thieves do.

R. M. Trezevant, 1441 East Ramon road, reported to police Tuesday that thieves Friday had stolen a coat from his car.

A little later he reported that they had entered his home and taken a vase.

Big Bear

Villagers Going Where
Fishing Is Good

Very Brown of the city hall staff and Marjorie Hyde are planning to take off today for a week-end at Big Bear Lake, guests of Mr. and Mrs. Frank Boardman, Mrs. Brown's parents. In a letter received this week from the Boardmans, fishing is reported great as Big Bear Lake. The Boardmans are landing many Blue Gill and trout daily and say the summer season was never better.

To increase the food supply in England, more than 20,000 railway men and women are cultivating "lineside" vegetable gardens, rented from the railroads for a shilling or two a year, utilizing 1300 acres of idle land and producing \$1,000,000 worth of crops.

Simpson Completes Season With New Coliseum Victory

Merlin Simpson, Palm Springs high school broad jumper and sprinter, added another trophy to his collection when he again defeated everything in his class in the broad jump and almost took the 180-yard dash in the Pasadena games at the Los Angeles Coliseum last week.

In winning the broad jump with a leap of 20 feet, three inches, he established his class as the best C broad jumper in the southland having taken that event in every meet from Riverside county league events to the California Interscholastic finals at Compton.

He lost his first 180-yard dash in the Pasadena game, finishing third by inches and only two-tenths of a second off the winner's time.

His victories at the Coliseum gave Palm Springs 7 points and a tie with Alhambra high for fourth place in the games.

RAILROAD CROSSINGS

"Don't argue with a train at a railroad crossing," admonishes Bert Stewart Jr., field secretary for National Automobile Club. "Automobiles seldom win that race with death."

Thrilling Games, Lots of Hitting Feature Softball Week; New Records Set as DHS Downs Jaycees, 28-15

Baseball, tight and loose, with several records being set and excitement aplenty featured the Softball schedule at the Field Club this week. Fans really got their money's worth, especially Wednesday night when Desert Hot Springs and Junior Chamber of Commerce staged a two-hour and 18 minute thriller.

The week started off innocently enough Monday when the Globe Trotters and Mexican Chicks of the Girls' league tangled.

THE GLOBE TROTTERS got away to a long lead in the first two innings and were never headed. Pitchers did the heavy hitting with Barbara Santa Cruz of the Mexican Chicks and Ruth Burns of the Globe Trotters each counting for four-baggers.

The line score: R.H.E. Globe Trotters 6 5 0 0 3 2—16 14 2 Mexican Chicks 2 0 0 3 3 0—8 12 3

D'Easter Webb, Ruth Burns and Sammie Boyd; Barbara Santa Cruz and Beverly Mendoza, S. Montigo.

DESERT LEAGUE teams tangled in the second game with Desert Hot Springs bowing to the Mexican Colony 7 to 12. Quiroz, Colony catcher, was hurt going after a foul tip in this game.

Little Donny Mendoza contributed a home run and Art Hurado got one with two on in the third.

The line score: R.H.E. Des. Hot Spgs. 0 0 0 2 2 1—7 11 3 Mexican Col. 0 1 6 1 4 0—12 11 2

Murphy and Ellis Prieto and Quiroz, Canales.

TUESDAY NIGHT there was but one game at the Field Club. The Desert Stars of the Girls' league went to India to meet the Five and Ten girls' team of that city and received for a 7 to 6 defeat.

At the Field Club a much improved White Sox team gave the favored Palm Springs Electric a battle in a Desert League game. The Electric won 12 to 8 but had a battle. Bob Cooper and Jeffrey of the Sox hit homers.

The line score: R.H.E. P. S. Electric 2 2 1 2 3 1—12 11 3 White Sox 1 2 2 2 0 0 1—8 8 6

Al Crossley, Hubbs and Sandef-

Odium Course

Closed for Summer And Improvements

The Cochran-Oldum golf course at Indio has closed for the present season it was announced today.

Much work is planned during the summer months on the course and it will be open in the Fall for the new season in greatly improved shape with several notable tournaments on the schedule.

fer, Allen, Foster, Jones and Malone.

BOYS' CLUB teams put on a fast game Wednesday night opening a thrilling double header evening when the Chuckwallas downed the Roadrunners 11 to 9. Joe (Pop) Sandeffer again offered a bottle of pop to each lad pasting a home run and had to dig up three. Lawrence Torres got one, Dan Perez another and Bunton the third.

The line score: R.H.E. Chuckwallas 0 0 2 3 6 0 0—11 10 6 Roadrunners 0 2 0 1 2 2—9 6 5

Martinez and Driskell; Bunton

THE BIG BLOW-OFF of the week came in the second game Wednesday night when Desert Hot Springs and Junior Chamber of Commerce teams clashed in a Desert League game.

The teams seen-sawed back and fourth for seven innings and wound up tied 14-14. The DHS team went into the ninth trailing 9 to 11 and scored five times. The Jaycees hacked away and scored three to tie it up. But in doing so, they ruined themselves. They stuck their pitcher, Vianai to pinch in Myers as a pinch hitter. Myers did his stuff but only tied it up so the Jaycees were without chinking material in the extra inning. And Desert Hot Springs

Water Supply and Conservation to be Topic on June 21

Conservation, development and individual safeguards for that vital cornerstone of California's life—water—will be stressed at a mass meeting sponsored by the Riverside County Farm Bureau on June 21.

Since the matter of water is vital to all county interests, tourist centers as well as farming areas, the Village will be represented at the session.

Fred McCall, bureau president, announced today that these three cardinal planks in California's water policy will be the main topics at the meeting and urged all organizations in the county to attend.

The meeting will be held at 2 p.m. in the Lincoln grammar school at Riverside. "We welcome everybody," said McCall. Ray B. Wiser, president of the California Farm Bureau Federation, will lead the detailed discussion on water policy. He is thoroughly informed on the matter as well as legislative, legal and engineering phases.

"We must advocate a water policy which will safeguard and protect the State's basic industry."

Conserving water and soil; on the economic implications of maximum development of water resources and safeguarding individual water rights are the three cornerstones of the water policy, McCall emphasized.

Lombardo

Music Maker To Try Again for Speed Mark

Guy Lombardo, music maker and speed boat enthusiast, who a few weeks ago made Palm Springs his headquarters in trial speed boat runs at Salton Sea, is going to try again.

This time he has Tempo VI, which he brought here en route to Salton Sea, at Baltimore for the Wilson Point Regatta June 26 and 27.

He failed to crack the world's record at Salton Sea in his desert attempt due to rough waters.

pounced on the ball to score 14 times. The C. of C. lads got only one of them back and the game ended 28 to 15 for DHS.

HEAVY HITTING was the feature with all sorts of home runs, triples and doubles abounding. Frank Gautiello got the longest hit recorded at the Field Club in recent history when he bashed one almost to the roller rink. In fact, he got two homers. Mooney hit one for extra bases and Red Watson got two homers and a single in six trips to the plate.

The line score: R.H.E. D. H. S. 5 2 0 0 2 0 5 14—28 21 6 Jr. C. C. 7 1 1 2 0 0 3 1—15 17 5

Martin, Murphy and Santori, Poist; Vianai, Watson, Myers and Bemish.

Southland Square Dance Teams Will Compete at Hemet

Square dancers of Los Compadres club, among the best in the southland, along with square dance teams throughout southern California are being invited to enter and participate in the old-time square dance contest planned again in connection with the big Farmers Fair & Festival being staged at Hemet, Oct. 6-10, inclusive.

Many handsome trophies and cash prizes will be offered contesting teams and the board of directors of California's 46th District Agricultural Association, sponsor of the Hemet Farmers Fair and Festival, hope to make the square dance contest one of the outstanding attractions of the fair.

Such keen interest was taken in the contest at last year's fair by spectators and followers of this form of terpsichorean art, that plans are being pushed to make the event a virtual southern California championship square dance affair.

There will be competition in many classifications and clubs and groups wishing to enter dance teams may secure detailed information by writing direct to Farmers Fair and Festival, Square Dance Contest Chairman, Hemet, California.

Cathedral City Lions Hold First Summer Meeting

Because of the fact that all dining rooms large enough to cater to groups in Cathedral City are closed for the summer did not deter Cathedral City Lions club from holding its first unofficial summer meeting on its regular meeting schedule. On last Thursday evening quite a number of the members journeyed to nearby Tramview and to the Montecito where they were served a delicious roast-pork and dressing dinner with side trimmings.

As the meeting was unofficial in the sense that no records are kept and no penalties exacted, it was kept so in fact. There was no program though the opening formalities were the same and the meeting was presided over by President Kelley. As evidence that all members had a good time and thoroughly enjoyed themselves was the fact that the group did not break up until well past the usual closing time and only then because President Lewis of the Chamber of Commerce had scheduled another meeting after the Lions Club dinner and kept insisting on a motion to adjourn.

These unofficial meetings are scheduled throughout the summer and Jack Maddox at the Cathedral Pharmacy fountain has

A new summer home built for all year use. In the pine country at Thomas Mountain, 14 miles nearer the desert than Idyllwild. Three rooms, Heatelator fireplace. \$4800—terms. Another four rooms, same fireplace. \$6000—terms.

Volunteer Worker Undertakes Painstaking Task at Library

Mrs. Dr. Conser, wife of a former physician of Santa Maria but now retired and living in Cathedral City, has installed herself in the Cathedral City Library for a summer's work in a complete inventory of all the books of the library and the installation of a new accession record.

This will involve taking every book from the shelves, examining it to see that all library data are in the book at the proper places, that its equivalent card records are in the files with all proper data. Every book in the library must have at least three card records in the files. The first card is called the accession card or the record of the date of receipt, the source, cost, author, title, publisher, date and if no longer on the shelves, its final disposition. These cards are in numerical sequence according to date of receipt.

The next card is the author card so that patrons looking for

the work of a particular author may readily determine just which of this author's books are on the shelves. This card carries the name of the author, the title of the book, the publisher and the date of copyright also the accession number. In case of non-fiction this card and all others also carries the classification number according to the Dewey Decimal System of numbering library books. This system divides all subjects into ten classifications, each assigned 100 numbers. Each 100 numbers is further broken down into 100 separations of the subject with a unit assigned to each. This is further divided by the decimal point so that the number of any book will tell those informed in the use of the system almost the exact subject and manner of treatment of any book merely by looking at the number.

THE NEXT CARD is the title card and gives the title of the book, the author and the accession number. All cards are inter-related and each must give its specific information. Besides this and related to the card system, each book carries the accession number on the book-plate, has a card pocket with the name of the author, the title, catalog number and accession number. In the pocket is a card which corresponds in information to the book-pocket and in addition has blank spaces in which return dates are noted.

This is a detail of the work that Mrs. Conser has set for herself during her summer vacation and a detail that few of the reading public appreciate who are not fully informed as to library procedure.

AS STATED BEFORE in these

columns, the Cathedral City Library is entirely the result of the gifts and work of public spirited citizens. All property and books have been gifts to the library and all work and service to the public on a volunteer basis. If you have recent books that you do not care to take with you when leaving for the summer, why not make your contribution to the library? The type of books most needed is children's books and for those under sixteen.

We have an ever growing section of these books but it is as yet entirely inadequate, most of the books being of an age that younger folk no longer care to read. Why not a contribution of books or cash with which to purchase these up-to-the-minute books for our young folks, young folks who only know the horse-and-buggy period by hearsay and are not satisfied to read books of that vintage. Mrs. Conser will be at the library most of the mornings during the summer or see Marie Ide at the Cathedral City Post Office.

Off in a Body

Cathedral City's Busiest
Man Plans "Vacation"

The Secretary of the Chamber of Commerce, Secretary of the Lions Club, Secretary and member of the Cathedral Sanitation Commission, Librarian of the Cathedral City Library, Radio Commentator of United World Federals, Editor of the Lions Tale and Reporter for the Desert Sun is leaving in a body (his own) for the Long Beach convention of Lions Clubs and his summer vacation.

Sanitation Board Sets Tax Rate for First Year at 19c

Commissioners of the Cathedral Sanitation district met in the Town Hall at Cathedral City on the evening of June 12th to further perfect their organization and to set the tax rate for the ensuing year.

A tentative ordinance was submitted by President Lewis as prepared by Attorney Woolpert of Indio who is acting for the board in legal matters incident to organization.

THE PREAMBLE of the ordinance is as follows: An ordinance of the Cathedral Sanitation District prohibiting the dumping and burying of trash or garbage within the limits of the said Sanitation District, excepting at a public dump designated and established by the said Sanitation District; further prohibiting transportation of trash or garbage over the public streets and rights-of-way within the limits of said Sanitation District, without a permit; further providing no garbage shall be burned within the limits of said district; further providing the terms and conditions under which the said permit so to transport shall be granted; further establishing a system of fees to be charged and collected from the owners of property using the facilities provided by the district for the disposal of trash and/or garbage within the district; further providing the penalty for the violation thereof.

The body of the ordinance sets forth in legal terminology the specific details of the preamble.

IN PLAIN ENGLISH, it sets forth the mandate of the citizens expressed at the polls last spring with only four dissenting votes, that the burning or burying of garbage must cease in Cathedral City, authorizes the establishment of a collection system and dictates that all citizens must use the system or else pay the penalty the law provides for evasion which includes a fine or imprisonment or both.

One exception is provided in case a potential user should desire to transport his own garbage and provides that a permit may be secured to do so, providing he transports such garbage in leak-proof covered containers to the public dump located on Ramon road which is used by both Palm Springs and Cathedral City. Trash is defined as any combustible material which gives off a noxious odor in burning. In this category would be rubber, tar paper, roofing and so on. It is not intended that the ordinance shall prohibit the burning of paper or other combustible materials in a manner conducive to public safety and in compliance with the established fire ordinances.

THE ORDINANCE was not acceptable in its entirety by the board and is to be referred to Attorney Woolpert for some slight changes. One of the points of disagreement with the ordinance as submitted is in the amount of the fees to be charged and the manner and time of payment. No immediate change in the present fees or time and manner of collection is contemplated.

Because of the fact that many of the residents of the community are away for the summer the board did not feel justified in making any change before next fall. Also due to the fact that no tax monies are obtainable during the present year will prevent any considerable change in the system before next January.

THE TAX RATE as set by the board after considerable discussion was fixed at 19 cents. On the recent county evaluation of property for Cathedral City, the assessment rolls are stated to be in the amount of \$527,000. At the 19 cent rate this evaluation will not produce sufficient funds to pay the minimum rate for a single family residence so that the outside collection of funds for the garbage disposal system is likely to continue indefinitely.

What this fund will do is to establish a slight reserve which may be used in the near future to help purchase or lease another public dump and part will be used a year from now to do away with or modify the present part of the system known as the vacancy rate. There has been considerable objection to this part of the system whereby some property owners feel that they are being penalized by being compelled to help support the system during the summer when they do not use it. What these people do not consider is that the collection must be maintained during the summer, that it cannot be stopped on the day they leave nor started on the day of their return.

Cathedral City News Roundup

A very interesting letter arrived from Mary Walseth from her home in Woodstock, New York. For the past few weeks we have been giving you notes about the many delightful and prominent places they visited on their journey home. From the letter we would say they continue to carry on a very interesting social life such as having birthday parties of over 25 for Peter Whitehead's birthday, playing bridge with the artist, Anton Otto Fischer in the Saturday evening Post, taking in the midjet auto races at Peekskill. Mary reports that Jim is enjoying his work at the New York Art Students League summer school. To celebrate the formal opening of the school they gave a cocktail party with an attendance of more than 400. There was a showing of work of each of the instructors, Kuniyoshi, Fletcher, Martin, Sydney Laufman and Arnold Blaich.

We note that Arthur Lester, one of Palm Springs high school teachers and part owner of the Texaco station with Glen Kuhry, is now operating same.

We are happy to report that Russ and Lois Barclay, operators of the Cathedral Beauty Salon, are transferring their salon to the new Linkletter building. They will be vacationing until September 1. Their vacation is to be spent attending the hair shows to be able to give their very good clientele the latest hair dress. They tell us they are installing the latest equipment and their location couldn't be better. Congratulations, Russ and Lois.

We note that "Pete the Tailor" is to occupy half of the new Linkletter building. We don't have any special information as to dates about this but will give you that later.

Mr. and Mrs. "Slim" Larsen and Mr. and Mrs. Claude Cobb attended the rodeo at Victorville last week.

GOOD IDEAS

KITCHEN TRICK

COMBINE hot, sliced hard-cooked eggs with minced green onions, tops and all, and mix with mayonnaise for a colorful, flavorful luncheon salad.

HOUSEHOLD HINT

DON'T LET your picnic paraphernalia get mixed with others in your party. Initial yours with bright red nail polish for quick identification.

RECIPE

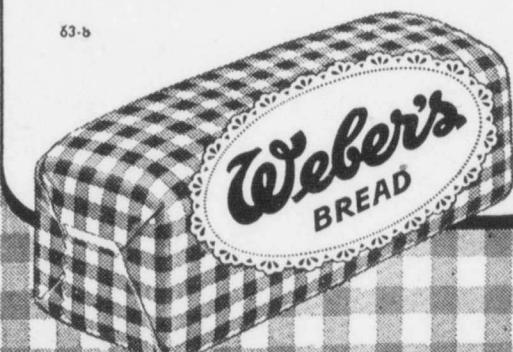

NOVEL CHEESE CASSEROLE

3 eggs, beaten	1/4 tsp. dry mustard
1/2 tsp. salt	2 1/2 c. milk
1/2 tsp. paprika	7-8 slices white bread
1/2 lb. American cheese	Butter

Butter bread well and cut into cubes. Slice cheese thin. Arrange alternate layers of bread and cheese in greased baking dish. Combine balance of ingredients, pour over bread and cheese. Bake in a medium oven (325°) 1 hour. Serves 3-4.

BUENAS NOCHES

MONDAY, Wednesday and Friday are the evenings to listen to the Cisco Kid and Pancho recreate the rousing days of the old West. KHJ, Los Angeles, 7:30 PM, or your local Don Lee Mutual Station. Weber's Bread sponsors these half-hour shows.

V. F. FRIZZELL
Freight Traffic Manager
Southern Pacific Company

Frizzell Named Freight Traffic Chief by S. P.

Appointment of V. F. Frizzell to succeed G. J. Blech, retired, as freight traffic manager for the Southern Pacific at Los Angeles, was announced today by W. W. Hale, vice-president of system freight traffic for the company.

Frizzell has been general freight agent for the railroad since March, 1941, with headquarters in Los Angeles. His new appointment is effective immediately. Hale said, with jurisdiction over the company's freight traffic in the general area south of San Luis Obispo and Tehachapi to Ensenada in Lower California and to the Arizona-Nevada state line.

Starting with Southern Pacific in 1909, Frizzell's early railroad-ing was in train service as a brakeman and conductor in Arizona. He transferred to the traffic department in 1923 as a traveling agent operating out of Tucson. His advancement continued with appointment as district freight and passenger agent at El Centro in 1926 and district freight agent in 1928 at Los Angeles, where he became assistant general freight agent in 1938 and was promoted three years later to his recent position of general freight agent.

Zoning Law

County Measure Adopted By Board of Supervisors

New county zoning ordinance providing two zones, one termed the U zone covering territory adjacent to the new branch of the University of California to be built at Riverside and the other, termed the M zone, which covers the remainder of the unincorporated areas of the county.

In the U zone, restrictions cover types of buildings and of businesses. The M zone is unrestricted.

Gets Law Degree

Villager Graduates from Georgetown Law School

Robert Williams, son of Mrs. Ada Williams of Palm Springs, Monday night received his degree from Georgetown University at Washington, D. C., and plans to take the bar examination in the District of Columbia before returning to the west coast to visit his mother.

He will also take the California bar examination and may settle in California.

A veteran of World War II, he was on the capital police force while attending Georgetown.

It is estimated that twelve per cent of the weight of a beet is sugar.

County Drive Planned to Aid Flood Victims

Riverside county chapter, American Red Cross, this week received the following figures on the Columbia river flood compiled on June 9 in 38 counties of Washington, Oregon, Idaho and Montana:

Families affected, 14,303; families registered with Red Cross, 7731; homes destroyed, 5144; homeless, 46,525; in ARC shelters, 3715, and persons being fed by ARC, 11,681.

Officials estimate three to four weeks more of high waters, which must recede before the long job of helping families reestablish themselves can be started by the Red Cross.

County Red Cross officials are planning a concerted drive to raise funds for flood victims. Hilton McCabe, chairman of the Palm Springs branch, did not believe an organized campaign would be held in the Village because so many people are now out of town.

Huge ropes 28 inches wide were used by the Persians to move a great army across the Hellespont in 480 B. C. The ropes held together 674 merchant ships over which stretched a plank roadway.

Summer Program Finds Many Girl Scouts Participating

The summer program is meeting with a very enthusiastic response from quite a few of the Girl Scouts. Mrs. Grace Morrison, who is in charge of the summer program, says the girls have done much craft work in making shell jewelry, cork coasters, bath mat weaving, corkery decorating and various other arts.

The program is only open to the Scouts and Mrs. Morrison says all remaining in the Village for the summer are welcome to attend the classes. They are held at the Little Scout House every Wednesday from ten to twelve and one to three, although the girls may bring their lunch and stay right on through the entire program.

Many items of clothing were left by the Brownies and Scouts at the Scout House during the past season, including shoes and sweaters. They or their parents are requested to stop at the Scout House to retrieve such clothing on any Wednesday.

The public as well as the Scouting organization is invited to participate in the Girls International project by leaving clothing or toys at the Fire Station.

The Desert Sun—7

Webers To Spend Summer Vacation on Ranch

Gerald and Jan Weber, who for the past two years have successfully operated the Palm Springs Pueblo, left this week for Bunker's ranch where they will spend the summer.

They will not be at the Pueblo next season but plan to return to Palm Springs in the fall.

Plans Summer Rest in Hollywood Section

Mrs. Marion MacCartan, long time Villager, has closed up her place of business for the summer and will spend the next four months in the Hollywood section.

An active member of the Palm Springs Business Women's club she plans to return to the Village in the early fall.

Servel All-Year Gas Air Conditioning —

"STEPS UP SUMMER SALES!"

"ATTRACTS CUSTOMERS!"

"PROTECTS MERCHANDISE!"

California owners praise profit advantages of Servel All-Year Gas Air Conditioning

You can turn the slack summer months into a season of profitable sales activity by installing Servel All-Year Gas Air Conditioning. Customers like to shop in the refreshingly cool, dehumidified air supplied by the Servel unit. They are easier to deal with, easier to sell. Your employees have more pep and efficiency. And your merchandise and fixtures stay fresh and clean longer.

You get all these benefits because the Servel All-Year Gas Air Conditioner refrigerates the air to just-right temperatures—no matter how high the mercury soars outside. The Servel unit also removes sticky, wilting humidity and filters out dust, dirt and irritating pollen.

Provides warmth, when needed

What's more, when heat is needed, the same Servel system supplies you with plenty of clean, even warmth—with just the right amount of moisture added for comfort. There are no "layers" of hot or cold air.

The Servel All-Year Gas Air Conditioner is simple to operate, too. A flick of your finger gives you just the climate you want through every season. Servel is economical as well. It makes possible many savings in building design and construction. Upkeep and maintenance are low.

Get all the facts

Ask your local Gas Company representative for cost figures and additional information today. Profit by a perfect indoor climate in your store or office this summer.

CUSTOMERS of Henry's Dress Shop, at 115 North Euclid, Ontario, California, Mr. Henry Korufeld, owner, enjoy just-right temperatures and humidity throughout every season—thanks to Servel All-Year Gas Air Conditioning.

LOOK AT THE ADVANTAGES SERVEL OFFERS YOU

- Complete, six-phase, year-round air conditioning with a single unit.
- It is a complete air conditioning system, cooling and heating the entire house through scientifically designed ducts and registers. Do not confuse with individual room coolers.
- You select your indoor climate with a "flick of your finger."
- Comfortable temperature and humidity in every room, every day of the year.
- No noise, no vibration.

LEGAL NOTICES

NOTICE OF FINAL HEARING ON PETITION FOR FORMATION OF DESERT HOSPITAL DISTRICT

Notice is hereby given to all interested persons that a petition has been filed with the Board of Supervisors of the County of Riverside, State of California, praying that a local hospital district be formed under the provisions of "The Local Hospital District Law" (Division 23, comprising Sections 32000 to 32313 inclusive of the Health and Safety Code, as amended).

The proposed name for the hospital district by said petition proposed is "Desert Hospital District".

The nature of the project proposed to be undertaken by said hospital district, if formed, is the establishment, maintenance, and operation of one or more hospitals to be situated within the territorial limits of the district, and all other projects and purposes as authorized by "The Local Hospital District Law". The proposed boundaries of said proposed hospital district are described as follows, to-wit:

Beginning at the northeast corner of Sec. 1, T. 2 S., R. 6 E., S.B.B. & M.:

Thence southerly along section lines, a distance of 18 miles to the southeast corner of Sec. 36, T. 4 S., R. 6 E., S.B.B. & M.;

Thence westerly along section lines a distance of 3 miles to the northeast corner of Sec. 4, T. 5 S., R. 6 E., S.B.B. & M.;

Thence southerly along section lines for a distance of 4 1/2 miles to the east 1/4 corner of Sec. 28, T. 5 S., R. 6 E., S.B.B. & M.;

Thence westerly 1/2 mile; thence southerly 1/2 mile to the south 1/4 corner of said Section 28;

Thence westerly 2 miles along section lines to the south 1/4 corner of Section 30, same Township and Range;

Thence northerly 1 mile to the north 1/4 corner of said Section 30;

Thence westerly 1/2 mile to the northwest corner of said Section 30;

Thence southerly along section lines a distance of 8 miles to the southeast corner of Sec. 36, T. 6 S., R. 5 E., S.B.B. & M.;

Thence westerly along section lines to the northeast corner of Sec. 1, T. 7 S., R. 5 E., S.B.B. & M.;

Thence southerly along section lines for a distance of 12 miles to the southeast corner of Sec. 36, T. 8 S., R. 5 E., S.B.B. & M.;

Thence westerly along section lines, being the boundary line between Riverside and San Diego Counties, for a distance of 6 miles to the southwest corner of Sec. 31, T. 8 S., R. 5 E., S.B.B. & M.;

Thence northerly along section lines for a distance of 12 miles to the northwest corner of Sec. 6, T. 7 S., R. 5 E., S.B.B. & M.;

Thence easterly along section lines to the southwest corner of Sec. 31, T. 6 S., R. 5 E., S.B.B. & M.;

Thence northerly along section lines for a distance of 6 miles to the southeast corner of Sec. 36, T. 5 S., R. 4 E., S.B.B. & M.;

Thence westerly along section lines for a distance of approximately 6 miles to the southwest corner of Sec. 31, T. 5 S., R. 4 E., S.B.B. & M.;

Thence northerly along section lines for a distance of 24 miles to the northwest corner of Sec. 6, T. 2 S., R. 4 E., S.B.B. & M.;

Thence easterly along section lines, which is the boundary line common to Riverside and San Bernardino Counties, for a distance of 18 miles to the point of beginning.

The petition herein referred to is available for inspection at the office of the Clerk of the Board of Supervisors in the County Court House in the City of Riverside, California.

Said petition has been set for final hearing by the Board of Supervisors on Monday, the 26th day of July, 1948, at the hour of ten o'clock A. M., at the Chambers of said Board of Supervisors in the County Court House in the City of Riverside, California. At said hearing protests will be considered by the Board of Supervisors and requests in writing for exclusion from or inclusion of lands in the proposed district will be heard and considered by the said Board of Supervisors. The number of written protests required to terminate the proceedings shall be a majority of the registered voters residing in the proposed district.

DATED: June 7, 1948.

(SEAL) W. V. PITTMAN
W. V. PITTMAN, CHAIRMAN,
BOARD OF SUPERVISORS OF
THE COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA.

ATTEST:
G. A. PEQUEGNAT
County Clerk and ex-officio Clerk of the Board of Supervisors of the County of Riverside, State of California.

By H. C. BEGOLE,
Deputy.
Pub. Desert Sun, June 18, 25, July 2, 9, 1948.

CERTIFICATE OF BUSINESS
(Fictitious Name)

From Page One—MORE ABOUT

Dr. Oertel ...

which a contract is being let this month, the high school trustees will have spent for the three new buildings at the high school a total of over \$700,000. In addition, for these three buildings the architect's fee has exceeded \$56,000. The swimming pool has cost \$35,000, plus \$4,240, for the engineering fee. Thus, new building costs so far for the high school district total \$816,480.00.

"When the building program started three years ago the district had accumulated \$150,000 in its building fund. A bond issue in the amount of \$750,000 was voted for the high school district in February, 1947. Nearly all of the \$900,000, made available for building purposes had been spent when costs for equipment and such items as the cost of building superintendent at \$600, per month are included.

"THE BOND ISSUE money was supposed to have built another classroom unit of six rooms, two shop buildings, and a badly-needed auditorium. It may be possible to get the shop buildings out of the remaining capital outlay funds, but a new bond issue will be required to get the additional classrooms and auditorium. If present building patterns are followed these will cost at least an additional \$650,000. Even with increased assessed valuation the district simply cannot get the money to continue building the way it has been building to date, and yet the buildings are desperately needed.

"The master plan for the high school has been well conceived. Had the board listened to advices from experienced educational counselors which have been offered to the board periodically, I am convinced that a building program could have been worked out with fully certified and competent technical assistance which would have given the high school district all the building units described in the bond issue brochure for the \$750,000.

"FIVE YEARS AGO I started asking the board to vote bonds when they could have had them for 1 and 1 1/4%, could have reinvested in 'government' and have used the money until the bonds were completely liquidated for as little as one-half of one per cent. The board would not act until 1947 when the bonds sold at 2 1/4 and 2 1/2. Thus the money is costing the district about four times as much as it would have cost had the board followed earlier advices from educational counselors.

"In another instance I practically pleaded with the trustees for three or four years to allow us to build a wood shop building, also a general metal shop building. I pointed out that our excellent and highly qualified wood shop teacher had to work in a shed without windows with accommodations for only 11 boys at a time. I said this was wasteful of a valuable teacher's time, but was told that we could get teachers for a dime a dozen but that we couldn't get buildings.

"THIS YEAR I renewed my efforts to get shop buildings, pointing out that we are getting more and more boys in school who needed shop experience and who could not succeed in algebra, history, or language. I said our discipline problems were increasing because we could not adapt some of our boys to our almost wholly academic schedule of subjects.

"I asked why couldn't we please—have some of the barracks buildings and adapt them for shop use. Finally, after much reluctance, the board did buy a 150-foot barracks building for \$3412.50. This structure was to be made into two shops, one for woodwork and one for metalwork, meeting State requirements, for about \$7500 each. Without discussing the matter in any regular or special meeting I attended, the board sold this building, untouched, for \$3000, to the Boys Club. Not only did the district lose \$412.50 in this deal, plus legal advertising costs, plus architects fees, but it now faces \$15,000, to get a single shop the prospect of having to pay building built from scratch. Moreover, it is not likely that even one shop building can be built before the beginning of the next school year, even if work were to be started in July.

Son for Lauryes

R. M. Gorman, postmaster, yesterday received a telegram from Al Laurye of George's steak house, sent from Superior, Wis., where he is spending the summer, announcing the birth of a boy. "Everybody is fine," Laurye wired.

I have been required to follow a rigidly drawn up outline. Even now the trustees continue to work out their own purposes as lay directors without too much regard for broad educational planning which is at all times available to them. There are important educational problems incident to the reorganization of the local schools which should receive expert attention right now if school costs are to be kept at a reasonable level and the effectiveness of the educational program maintained.

"The fact is that my advices have not been sought on a good many matters of importance and

Just a Breeze

Firemen Go Half a Block To Subdue Auto Blaze

Firemen didn't have far to go Tuesday afternoon when Art Coffey's automobile caught on fire. The car was parked in the Pago Pago lot a few doors south of the fire station and the department had the blaze under control before the siren stopped sounding off.

Damage was nominal.

You want to know how to get along with a woman? Well, let her know who's boss. I found out a long time ago that a woman is no trouble to manage if you let her know who's boss. Just say to her, "Honey, you're boss." It always works—Cal Tinney.

To Cathedral

Al Pataine and Family Move from Village

Al Pataine who has been a resident of the Village since he left the air service in 1944 this week moved his family to Cathedral City to be nearer his business establishment.

He has leased the Jim Harris residence at 517 E street in Cathedral City and he and his family completed moving there Wednesday.

To keep frames of pictures protected, see that the frames are waxed frequently. Several thin layers of buffing will do the trick.

The bicycle came into vogue about 1880.

From Page One—MORE ABOUT
This Side of Sun ...

female tosspots ... When a woman in the bar was usually the one in the gift frame above the mirror ... Anyway, nobody ever wrote one entitled: F-A-T-H-E-R.

LIKE, for instance, F is for that feathery feeling he acquires on Saturday night; A is for the ambition he doesn't have like the other fellows; T is for the tantrums he throws when the kids are noisy; H is for the hangover with which he greets Sunday morn; E, ah, E, that's his best point; E is for the envelope he brings home each pay-day; (providing you greet him before he gets out of the office) and R is for the rest he demands because he works harder than anyone else in the house; put them all

together—and you'd better be because if it wasn't for him, where in the heck would any of us be?

COMES AN UNKIND communication this week ... "Why didn't you be truthful and say: 'Blushes courtesy Hiram Walker or I. W. Harper' at the top of your bench story Tuesday?" ... Well, madam, in reply I'd like to state that I'm in the second year of my Noble Experiment and that the strongest drink I've had in months was one day when I couldn't remember whether I'd put six cups of water or three in the coffee pot and decided on the former when it was the latter ... I should have known something was wrong when the spoon stood straight up in the cup ... "Now that you've got your benches why not start another campaign to grow trees in town so that they'll be in the shade?" ... queries another ... Give me time.

SEE where someone has started a serve yourself gasoline station ... You put in your own gas, check your tires and, I suppose, wash your own windshield ... Seems to me they'll have to change the name of those places ... Wouldn't seem right to call them "service" stations ... Monday is the first day of summer but you don't need a calendar to know that ... Just take a trip and notice the "detour" signs ... Wonder why they always wait until everybody gets out on the highway, vacation-bent, before they tear them up ... Wal Spalding is going to try out one of my ideas ... For some time I have mentioned every once in a while that in a place like Palm Springs they should set aside an hour or two for a siesta each day ... Spalding, in announcing that he plans to stay open all summer, set his store hours: 9 to 12, 3 to 6 ... He's going to take a siesta from noon until 3 ... That's a grand idea ... Think of the national publicity that would go with a yarn: "Palm Springs Sets Official Siesta Hours"

GOT A PUZZLE and can't seem to get the right answer ... Monday was Flag Day and all the flags displayed here except one were at full staff ... That one was at half mast ... Why? ... The Greater Los Angeles chapter of the national safety council comes out with the claim that Los Angeles, all things considered, is one of the nation's safest cities insofar as traffic is concerned ... Yeah, and I'm one of the skinniest men in the country, too.

WELL, happy summer to you and don't forget if you're one to brag about being as honest as the day is long, you'll have to work overtime next Monday.
